

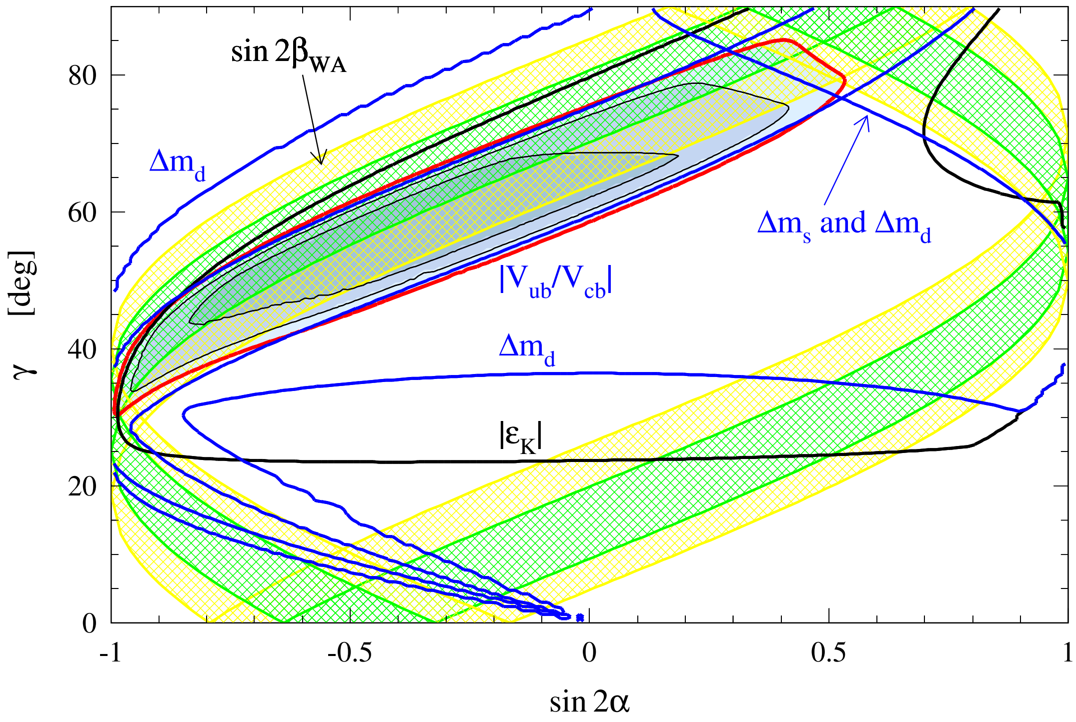

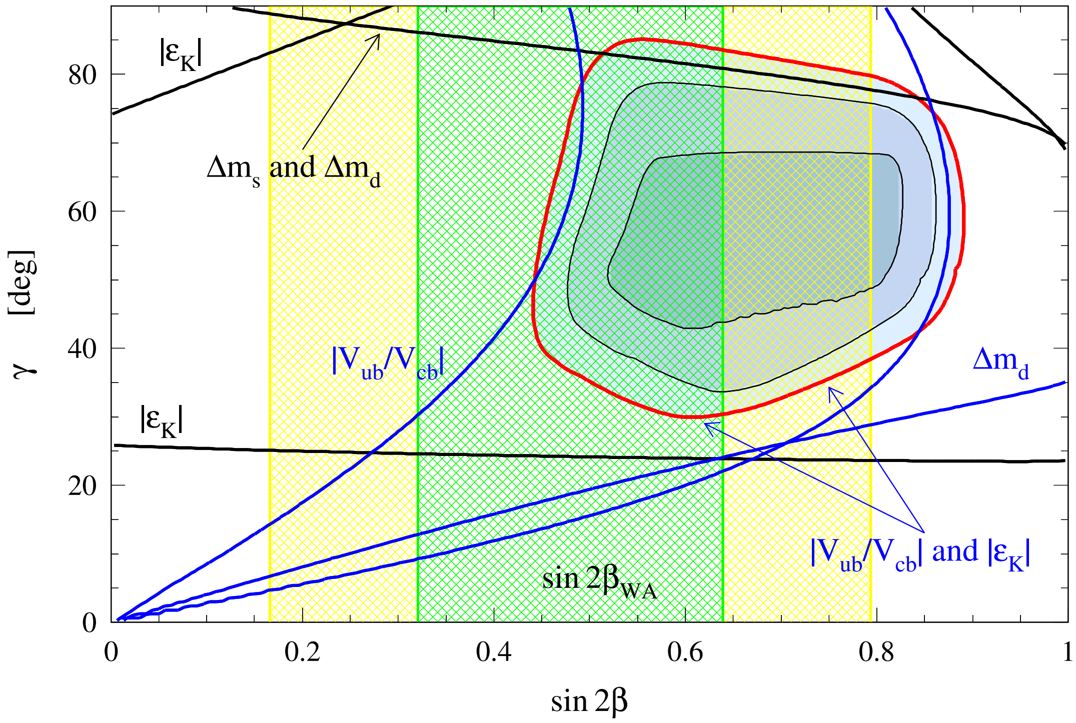

Figure 4: *Confidence levels in the* $(\sin 2\alpha,\ \gamma)$ *(upper plot) and the* $(\sin 2\beta,\ \gamma)$ *plane (lower plot), obtained from the global CKM fit. The shaded areas indicate the regions of* $\geq 90\%$, $\geq 32\%$ *and* $\geq 5\%$ *CLs, respectively. Shown in addition are the* 5% *CL contours of the individual constraints. The* $\geq 32\%$ *and* $\geq 5\%$ *CL constraints from the world average of the* $\sin 2\beta$ *measurements are given by the dashed areas. It does not enter the global fit.*
