
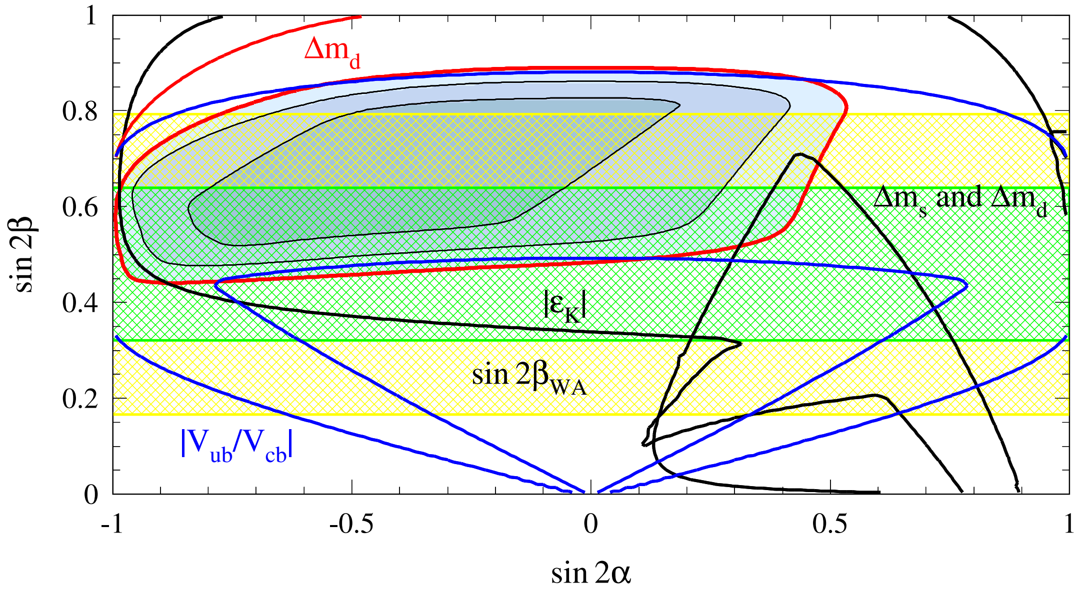

Figure 3: *Confidence levels in the* $(\sin 2\alpha,\ \sin 2\beta)$ *plane for the global CKM fit. The shaded areas indicate the regions of* $\geq 90\%$, $\geq 32\%$ *and* $\geq 5\%$ *CLs, respectively. Also shown are the* 5% *CL contours of the individual constraints. The* $\geq 32\%$ *and* $\geq 5\%$ *CL constraints from the world average of the* $\sin 2\beta$ *measurements, not entering the global fit, are given by the dashed areas.*
